

Product information Mechanical risks

uvex synexo M100//60021

Description

The seamless mechanical glove uvex synexo M100 offers enhanced protection in addition to good grip. The integrated damping elements in the palm of the hand protect the user from impact and shock. The wear during robust activities in the area of the thumb and forefinger is minimized by the partial reinforcement of the crook of the thumb.

Characteristics

- good secure grip
- good mechanical abrasion resistance
- excellent fit
- good wearer comfort
- High flexibility

Applications

- tasks with extreme mechanical stress
- construction
- mining
- maintenance/servicing
