

## Product information chemical risks

uvex rubiflex S NB27S//89646

### Description

A stronger cotton interlock lining is used for these chemical protection safety gloves. This model is therefore suitable for many applications that require increased mechanical protection (e. g. temperature) in addition to chemical protection.

### Characteristics

- Ergonomic fit
- good resistance to many chemicals, acids, alkalis, mineral oils and solvents
- High water vapour absorption due to the cotton lining
- Excellent mechanical properties
- Extremely high flexibility

### Applications

- automotive sector
- Chemical industry
- Mechanical industry
- metal processing industry
- sandblasting
